Parental Controls (Highly recommended)

<https://support.apple.com/en-au/HT201304>

With Screen Time, you can turn on Content & Privacy Restrictions to manage content, apps and settings on your child's device. You can also restrict explicit content, purchases and downloads, and changes to privacy settings.

Apple's parental controls are important tools that allow parents to choose how — and how often — their children can use their devices. Parental controls are built right into each iPhone, iPad and Mac.

Family Sharing

<https://www.apple.com/au/family-sharing/>

Family Sharing lets you and up to five other family members share access to amazing Apple services like Apple Music, Apple TV+, Apple News+ and Apple Arcade. Your group can also share iTunes, Apple Books and App Store purchases; an iCloud storage plan; and a family photo album. You can even help locate each other's missing devices.
