How Booklist Quantities Are Determined

The items listed on the booklist are based on the materials and resources that teachers have identified as being required for classroom learning throughout the year.

The quantities shown are recommended amounts to ensure students have the supplies they need. However, parents are welcome to increase or decrease these quantities based on their child's individual needs, existing supplies at home, or personal preference.

The booklist is intended as a guide to help families prepare for the school year, while still providing flexibility for parents to make adjustments where appropriate.
